Lieutenant Peary has returned from his polar expedition having gone 30 miles nearer the pole than any other explorer, but not reaching the object of his search.

THE Trinidad papers are reporting an eruption of Culeba Peak, one of the Snowy Range, about 20 miles west of Trinidad. It is claimed that the mountain is belching forth fire and smoke. We hope that this is only another newspaper fairy tale.

A Panama special says that German Kehl, who in 1903 tried to gain admission to the White House with the declared intention of killing President Roosevelt, arrived in Panama yesterday from Chili. He was immediately put under arrest and sent back to Chili.

PRESIDENT ROOSEVELT and family are on their way to the Isthmus where the president expects to personally look after the interests of Uncle Sam in connection with our big ditch. He feels that, despite the assertion of the contractors that the Chinese coolies are the only class of men that can stand the Panama climatic conditions, it would be wiser to give employment to some of our colored population that is giving so much trouble in the south. This is the first instance of a president breaking that unwritten law which forbids our chief executive to leave the boundary of the United States.

## THE ELECTION RETURNS.

Though Still Incomplete Show Some Democratic Victories and A Remarkable Democratic Gain Throughout the Territory and country. Larizola is still ahead, Castilla won by 18 votes and Valverde Lost by only four votes.

The returns from Tuesday's election are slowly coming in, and throughout the country the Democrats have made splendid gains, with the exception of Colorado, which elected a solid Republican ticket. New York went Republican by a majority of 50,000 votes for governor and it is considered the balance of the ticket went Democratic, which, in view of the peculiar condition of politics in that state, is considered a splendid victory for the Democrats. Oklahoma went overwhelmingly Democratic. Thus insuring two Democratic senators from that state. Missouri returned to her first love, and is again a Democratic state. The Democrats in congress have gained twenty-five members thus reducing the Republican majority to about fifty. Everything is encouraging for the Democrats, and presages an overwhelming victory two years from now.

The republicans have been luckier in county affairs, than in territorial and national affairs. They have elected every man on the republican ticket, with the possible exception of Valverde for commissioner, Pinard for sheriff, and Castillo for school superintendent. The returns are very encouraging to the democrats, who went into the fight almost without hope, and without a chance of the election of a single candidate. They had no organization of any consequence, prior to the convention, but during the short time to the convention they perfected a splendid machine, which is responsible for the excellent showing made. The real power of the organization were Messrs. Valverde, Herzstein, Lackey, Mansker and Wheatley; and their splendid generalship is shown in the returns which are slowly coming in. While we did not elect our entire ticket, the splendid fight made conclusively proves that the democracy of Union county is fast returning to itself again, that honest government in county affairs will soon be accomplished.

Thursday night word was received here that Hon. O. A. Larrazola, the democratic candidate for delegate to congress, was elected by a small majority. The message was sent by A. A. Jones, chairman of the Democratic Central committee, and was the most gratifying news received by the democrats in this county in many years. Later newspaper reports show that both sides are claiming the office by very small majorities, and probably we will not know for certain until after the official count. We believe that New Mexico has at last removed the blot of Andrews from the lower house of our National Congress. In his place Larrazola will represent us ably, honestly and efficiently. If the democracy of New Mexico never elects another candidate, it has done a lasting favor to the country, and to posterity, being the means of removing Andrews, and placing in his stead that splendid gentleman, Hon. O. A. Larrazola.

If the democrats in the Cimarron precinct of this county had gone to the polls and voted, there would be several democrats elected to county offices. So we have no one to blame but our own blamed selves. This county, properly organized is democratic. The election, so far as we are able to learn, passed off in this county, peaceably and quietly. Joint statehood was defeated in Arizona and only carried in this Territory by a small majority. Later reports show that Valverde was defeated for county commissioner by three votes and Sat Pinard defeated for sheriff by 12 or 15 votes. Castillo, for school superintendent is the only man elected on the democratic ticket in Union county.

Unofficial returns in New Hampshire indicate that the voters failed by the narrow margin of ten to elect a governor. The state law requires that the successful candidate receive a majority over the other candidates, and Floyd, republican nominee, falls short by ten votes receiving the needed majority. Unless the official result shows a change, the legislature will be called upon to name the next governor.

The state ticket in Kansas will probably require an official count before the result is known.
